CRS-O.C. OIL COOLERS & HEAT EXCHANGERS

CRS-CELIKSAN GROUP is a worldwide, ISO9001 certified OEM Heat Exchanger and Oil Cooler manufacturer, used for construction machinery, truck, generators, marine engines, industrial engine and natural gas engine.

Our copper tubes comes from wieland-Germany(www.wielandmetals.com) and silmet S.P.A-Italy (www.silmet.com). We prefer the World class brand about raw material selection.

We are using high welding&operating technolgy during production of Shell&tubes oil coolers. All casting body operated by CNC (computer numerical control) machines and Cooper tubes and casting body welded %40 silver welding wire.

About quality control , after welding process all coolers come to high pressure test section and all coolers teste done by one.

We have a purpose built factory ideally situated centrally in the heart of the TURKEY, from where it directly exports over 70% of its production worldwide.
